# ASIA BIOMASS PUBLIC COMPANY LIMITED AND ITS SUBSIDIARIES

**Financial Statements** 

For the Year Ended December 31, 2017

and Report of Certified Public Accountant

M.R. & ASSOCIATES CO., LTD.

**Certified Public Accountants** 

## REPORT OF CERTIFIED PUBLIC ACCOUNTANT

To the Shareholders and the Board of Directors of Asia Biomass Public Company Limited

### **Opinion**

I have audited the consolidated financial statements of Asia Biomass Public Company Limited and its subsidiaries (the Group), which comprise the consolidated statement of financial position as at December 31, 2017, and the consolidated statement of comprehensive income, consolidated statement of changes in shareholders' equity and consolidated statement of cash flows for the year then ended, and notes to the consolidated financial statements, including a summary of significant accounting policies. I have also audited the separate financial statements of Asia Biomass Public Company Limited, which comprise the separate statement of financial position as at December 31, 2017, and the separate statement of comprehensive income, separate statement of changes in shareholders' equity and separate statement of cash flows for the year then ended, and notes to the separate financial statements, including a summary of significant accounting policies.

In my opinion, the accompanying consolidated financial statements present fairly, in all material respects, the consolidated financial position of Asia Biomass Public Company Limited and its subsidiaries as at December 31, 2017, and their consolidated financial performance and their consolidated cash flows for the year then ended in accordance with Thai Financial Reporting Standards. Also, the accompanying separate financial statements present fairly, in all material respects, the financial position of Asia Biomass Public Company Limited as at December 31, 2017, and its financial performance and its cash flows for the year then ended in accordance with Thai Financial Reporting Standards.

## **Basis for Opinion**

I conducted my audit in accordance with Thai Standards on Auditing. My responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of my report. I am independent of the Group in accordance with the Federation of Accounting Professions' Code of Ethics for Professional Accountants together with the ethical requirements that are relevant to my audit of the financial statements, and I have fulfilled my other ethical responsibilities in accordance with these requirements. I believe that the audit evidence I have obtained is sufficient and appropriate to provide a basis for my opinion.

### **Emphasis of Matter**

I draw attention to Note 3, the consolidated and separate financial statements of Asia Biomass Public Company Limited as at and for the year ended December 31, 2016 have been restated for the effects of error in recording inventories resulting from change in allocation method of overhead cost which effect to ending inventories of Baht 3.3 million (represent 0.43% of total assets of the consolidated financial statements) and Baht 2.3 million (represent 0.31% of total assets of the separate financial statements) and effects to profit for the year ended December 31, 2016 of Baht 1.2 million (represent 4.6% of profit for the year of the consolidated financial statements) and Baht 0.4 million (represent 0.76% of profit for the year of the separate financial statements). My opinion is not modified in respect of this matter.

### Responsibilities of Management and Those Charged with Governance for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with Thai Financial Reporting Standards, and for such internal control as management determines is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is responsible for assessing the Group's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Group or to cease operations, or has no realistic alternative but to do so.

Those charged with governance is responsible for overseeing the Group's financial reporting process.

### Auditor's Responsibilities for the Audit of the Financial Statements

My objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes my opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with Thai Standards on Auditing will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

As part of an audit in accordance with Thai Standards on Auditing, I exercise professional judgment and maintain professional skepticism throughout the audit. I also:

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for my opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Group's internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.

- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Group's ability to continue as a going concern. If I conclude that a material uncertainty exists, I am required to draw attention in my auditor's report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify my opinion. My conclusions are based on the audit evidence obtained up to the date of my auditor's report. However, future events or conditions may cause the Group to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.
- Obtain sufficient appropriate audit evidence regarding the financial information of the entities or business activities within the Group to express an opinion on the consolidated financial statements. I am responsible for the direction, supervision and performance of the group audit. I remain solely responsible for my audit opinion.

I communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that I identify during my audit.

I also provide those charged with governance with a statement that I have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on my independence, and where applicable, related safeguards.

(Mr. Methee Ratanasrimetha) Certified Public Accountant Registration No. 3425

Branch 4 : 113/1 Moo 3, Kanjanavithi Road., Tambol Bangkung, Amphur Mueang Surat Thani,

Surat Thani

### 2. BASIS FOR PREPARATION OF FINANCIAL STATEMENTS

The accompanying financial statements are prepared in Thai Baht in the Thai language in conformity with the financial reporting standards in Thailand. Accordingly, the accompanying financial statements are intended solely to present the financial position, results of operations and cash flows in accordance with the financial reporting standards in Thailand.

The consolidated financial statements comprises the financial statements of the Company and its subsidiaries (together referred to as the "Group"). Details of the Company's subsidiaries are as follows:

		Country of	Percentage o	f Holding (%)
Subsidiaries	Type of Business	incorporation	2017	2016
Sathaporn Tanapat Co., Ltd.	Transportation	Thailand	99.99	99.99
Paprapat Co., Ltd.	Trading of biomass	Thailand	99.98	99.98
PT Asia Biomass Indonesia	Trading of biomass	Indonesia	99.00	99.00
Asia Biomass Energy SDN. BHD.	Trading of biomass	Malaysia	55.00	55.00
Asia Biomass Resources SDN. BHD.	Trading of biomass	Malaysia	55.00	55.00

Significant intra-group transactions between the Company and its subsidiaries are eliminated on consolidation.

Except as disclosed in the accounting policies, the accompanying financial statements have been prepared under the historical cost convention.

The Group disclosed relative figure information for the year ended December 31, 2016, for comparative propose in the financial statement for the year ended December 31, 2017.

For convenience of the readers, an English translation of the financial information has been prepared from the Thai language statutory financial information that is issued for domestic financial reporting purposes.

Revision of accounting standards, financial reporting standards, and interpretations

The Federal of Accounting Professions (FAP) issued several Notifications regarding the revision of Thai Accounting Standards (TAS), Thai Financial Reporting Standards (TFRS), Thai Accounting Interpretation (TSIC), and Thai Financial Reporting Interpretation (TFRIC) with the effective for the accounting period beginning on or after January 1, 2017. Adoption of the revised TAS and TFRS as well as TSIC and TFRIC did not have any material effect to the financial statements of the Group.

FAP issued several Notifications regarding the revision of TAS, TFRS, TSIC, and TFRIC with the effective for the accounting period beginning on or after January 1, 2018 whereby the Group not yet adopted in the preparation of the accompanying financial statements and has no policy to early adopt before the effective period, which are as follows:

Management of the Group has preliminarily assessed and believed that there will be no material effect to the financial statements of the Group upon adoption of the revised TAS and TFRS as well as TSIC and TFRIC.

## 3. ADJUSTMENT

In 2017, the Group has restated the financial statements for the year ended December 31, 2016 for the effects of error in recording inventories resulting from change in allocation method of overhead cost.

Effect from the change are as follows:

	Increase (Decrease)			
	Consolidated		Separ	rate
	financial st	atements	financial st	tatements
	December	January	December	January
	31, 2016	1, 2016	31, 2016	1, 2016
Statements of financial position

## 4. SIGNIFICANT ACCOUNTING POLICIES

### **Basis of consolidation**

The consolidated financial statements relate to the Company and its subsidiaries (together referred to as the "Group").

Significant intra-group transactions between the Company and its subsidiaries are eliminated on consolidation.

### Subsidiaries

Subsidiary is the company controlled by the Company. Control exists when the Company has the power, directly or indirectly, to govern the financial and operating policies of a company as well as the variable returns from a company so as to obtain benefits from its activities. The financial statements of subsidiary are included in the consolidated financial statements from the date that control commences until the date that control ceases. Accounting policies of the subsidiary were necessarily transformed for uniformity with the Company's policies.

Accounting for acquisitions of non-controlling interests

Changes in a parent's ownership interest in subsidiaries that do not result in the loss of control are accounted for within equity. When an entity loses control of subsidiaries, any gain or loss is recognized in the profit or loss. Any investment retained in the former subsidiaries is measured at its fair value at the date when control is lost.

### Foreign Currencies

Foreign Currency Transactions

Transactions in foreign currencies are translated to Thai Baht at the foreign exchange rates ruling at the dates of the transactions.

Monetary assets and liabilities denominated in foreign currencies at the reporting date are translated to Thai Baht at the foreign exchange rates ruling at that date. Foreign exchange differences arising on translation are recognized in the profit or loss.

Non-monetary assets and liabilities measured at cost in foreign currencies are translated to Thai Baht using the foreign exchange rates ruling at the dates of the transactions.

Foreign entity

Assets and liabilities of foreign entity are translated to Thai Baht at the exchange rates ruling at the end of reporting period (the closing rate).

Revenues and expenses of foreign entity are translated to Thai Baht at the exchange rates ruling at the dates of the transactions.

Differences arising on foreign currency translation or conversion are recognized as other comprehensive income or loss and separately presented as other component of equity until the subject foreign currency investment is disposed.

### Cash and Cash Equivalents

Cash and cash equivalents comprise cash balances, call deposits and highly liquid short-term investments. Bank overdrafts that are repayable on demand are a component of financing activities for the purpose of the statement of cash flows.

Cash at banks which have restrictions in use are presented separately as "Deposits at financial institutions under pledged" under non-current assets in the statement of financial position.

### Trade Accounts Receivable and Allowance for Doubtful Accounts

Trade accounts receivable is stated at their invoice value less allowance for doubtful accounts.

The allowance for doubtful accounts is assessed primarily on analysis of payment histories and future expectations of customer payments. Bad debts are written off when incurred.

### **Inventories**

Inventories are stated at the lower of cost (after deduction of allowance for decline in inventories) and net realizable value.

Cost is calculated using the moving average cost formula; and comprises all costs of purchase, costs of conversion and other costs incurred in bringing the inventories to their present location and condition. Cost includes an appropriate share of overheads.

Net realizable value is the estimated selling price in the ordinary course of business less the estimated costs necessary to make the sale.

An allowance is made for all deteriorated, damaged, obsolete and slow moving inventories.

### **Investments in subsidiaries**

Investments in subsidiaries in the separate financial statements are stated at cost net of impairment losses (if any). Dividend income is recognized when it was declared.

### **Property, Plant and Equipment**

Owned assets

Property, plant and equipment are stated at cost less accumulated depreciation and impairment losses.

### Leased assets

Leases in terms of which the Group substantially assumes all the risk and rewards of ownership are classified as finance leases. Property, plant and equipment acquired by way of finance leases is capitalized at the lower of its fair value and the present value of the minimum lease payments at the inception of the lease, less accumulated depreciation and impairment losses. Lease payments are apportioned between the finance charges and reduction of the lease liability so as to achieve a constant rate of interest on the remaining balance of the liability. Finance charges are charged directly to profit or loss.

### Depreciation

Depreciation is charged to profit or loss on a straight-line basis over the estimated useful lives of each part of an item of property, plant and equipment. The estimated useful lives are as follows:

Land improvements	5, 10, 20	Years
Building and building improvements	5, 10, 20	Years
Machinery and equipment	5, 10, 20	Years
Equipment and Furniture	3, 5	Years
Vehicles	5,10	Years

No depreciation is provided on land and assets under construction.

Depreciation methods, useful lives and residual values are reviewed at each financial year-end and adjusted if appropriate.

### Computer software

Computer software is stated at cost less accumulated amortization and impairment losses.

### Amortization

Amortization is charged to profit or loss on a straight-line basis over the estimated useful life of 5-10 years.

### **Impairment of Assets**

The carrying amounts of the Group's assets are reviewed at each reporting date to determine whether there is any indication of impairment. If any such indication exists, the assets' recoverable amounts (the higher of an asset's net selling price or value in use) are estimated. The review is made for individual assets or for the cash-generating unit.

In case that the carrying value of an asset exceeds its recoverable amount, the Group recognizes the impairment losses by reducing the carrying value of the asset to be at its recoverable amount and recording the devaluation in profit or loss. The reversal of impairment losses recognized in prior years is recorded as part of other income when there is an indication that the impairment losses recognized for the assets no longer exist or are decreased.

### **Employee benefits**

Salaries, wages, bonuses and contributions to social securities fund are recognized as expense upon their occurrences and on accrual basis.

The Group's obligation in respect of post-employment benefits, which are compensations under labor protection acts, is recognized as liability and expense in the financial statements based on the amount calculated, using the projected unit credit method by a qualified actuary. Expenses from the estimated liability for post-employment benefits comprise current service cost and interest cost. Actuarial gain/loss is recognized in other comprehensive income. This employee benefit plan is unfunded and has no any incurred plan asset.

### **Provisions**

A provision is recognized in the statement of financial position when the Group has a present legal or constructive obligation as a result of a past event, and it is probable that an outflow of economic benefits will be required to settle the obligation and a reliable estimate can be made of the amount of the obligation. If the effect is material, provisions are determined by discounting the expected future cash flows at a pretax rate that reflects current market assessment of the time value of money and, where appropriate, the risks specific to the liability.

## **Surplus on Business Combination under Common Control**

Business combination under common control is a business combination in which all of the combining entities or businesses are ultimately controlled by the same persons, group of persons, entity, or group of entities both before and after the business combination, and that control is not transitory.

Unrealized gain or loss on internal restructuring of the entities under common control is the difference between the carrying amounts of the obtained assets and the purchase costs of the assets incurred on internal restructuring of the entity of group of entities under common control whereby such purchase of assets is the combination of the entities under the same shareholders and management. Such unrealized gain or loss is presented as "Surplus on business combination under common control" which is separately presented under other components of equity in the statement of financial position. When the assets relating to surplus on business combination under common control are retired or disposed of, the corresponding surplus on business combination under common control is directly transferred to retained earnings.

### **Revenue Recognition**

Revenue excludes value added taxes and is arrived at after deduction of trade discounts.

Revenue is recognized in profit or loss when the significant risks and rewards of ownership have been transferred to the buyer. No revenue is recognized if there is continuing management involvement with the goods or there are significant uncertainties regarding recovery of the consideration due, associated costs or the probable return of goods.

Service income is recognized as services are provided.

Rental income under operating leases is recognized in the statement of comprehensive income on a straight line basis over the term of the lease.

Interest and other income are recognized on an accrual basis.

Dividend income is recognized on the date that the right to receive dividend payment is established which in the case of quoted securities is usually the ex-dividend date.

### **Expenses**

### Operating leases

Payments made under operating leases are recognized in profit or loss on a straight-line basis over the term of the lease. Contingent rentals are charged to profit or loss in the accounting period in which they are incurred.

### Finance costs

Interest expense and similar costs are charged to profit or loss in the period in which they are incurred, except to the extent that they are capitalized as being directly attributable to the acquisition, construction or production of an asset which necessarily takes a substantial period of time to be prepared for its intended use or sale. The interest component of finance lease payments is recognized in profit or loss using the effective interest rate method.

### **Use of Estimates**

In order to prepare financial statements in conformity with financial reporting standards in Thailand, management needs to make estimates and set assumptions that affect income, expenditure, assets and liabilities in order to disclose information on the valuation of assets, liabilities and contingent liabilities. Actual outcomes may, therefore, differ from the estimates used.

The estimates and underlying assumptions used in the preparation of these financial statements are reviewed on an ongoing basis. Revision to accounting estimates are recognized in the period in which the estimate is revised if the revision affects only that period, or in the period of the revision and future periods if the revision affects both current and future periods.

### **Derivative financial instruments**

Derivative financial instruments are used to manage exposure to foreign exchange and interest rate risks arising from operational and financing activities. Derivative financial instruments are not used for trading purposes. However, derivatives that do not qualify for hedge accounting are accounted for as trading instruments.

Derivative financial instruments are recognized initially at fair value. Subsequent to initial recognition, they are remeasured at fair value. The gain or loss on remeasurement to fair value is recognized immediately in profit or loss.

The fair value of forward exchange contracts is based on their listed market price, if available. If a listed market price is not available, then fair value is estimated by discounting the difference between the contractual forward price and the current forward price at the statement of reporting date for the residual maturity of the contract using a risk-free interest rate (based on government bonds).

### **Income Tax**

Income tax expense for the year comprises current and deferred tax.

Current tax is the amount of tax payable or recoverable on the taxable income for the year, using tax rates enacted at the reporting date, and any adjustment to tax payable in respect of previous years.

Deferred tax is recognized in respect of temporary differences between the carrying amounts of assets and liabilities for financial reporting purposes and the amounts used for taxation purposes. Deferred tax is measured at the tax rates that are expected to be applied to the temporary differences when they reverse, based on the laws that have been enacted by the reporting date.

A deferred tax asset is recognized to the extent that it is probable that future taxable profits will be available against which the temporary differences can be utilized. Deferred tax assets are reviewed at each reporting date and reduced to the extent that it is no longer probable that the related tax benefit will be realized.

### **Earnings per Share**

Earnings per share is determined by dividing the profit for the year by the weighted average number of ordinary shares outstanding during the years.

### 5. RELATED PARTY TRANSACTIONS AND BALANCES

Related parties are those parties considered to be related to the Group. Related parties have the ability, directly or indirectly, to control the Group or exercise significant influence over the Group in making financial and operating decisions or where the Group and parties are subject to common control or common significant influence.

The related parties consisted of:

		Percentage	of Holding

Capital increase		73,000	36,500		
At December 31, - ordinary shares		225,000	112,500	152,000	76,000

At the extraordinary meeting of the shareholders of the Company held on February 26, 2017, the shareholders passed the following resolutions:

- a) change the par value from Baht 100 per share to Baht 0.50 per share
- b) increase authorized share capital from Baht 76,000,000 (760,000 ordinary shares at Baht 100 par value) to Baht 150,000,000 (300,000,000 ordinary shares at Baht 0.50 par value) by offered the newly issued 73,000,000 ordinary shares to the existing shareholders in proportion of shareholding and 75,000,000 ordinary shares to the public. The Company registered the capital increase with the Ministry of Commerce on March 1, 2017 and registered the increase in paid-up share capital with the Ministry of Commerce on March 3, 2017. Accordingly, as at December 31, 2016 the number of paid-up share capital has been changed from 760,000 shares to 152,000,000 shares.
- c) to list the Company's securities on MAI in order to support the Company's expansion in the future.

#### 17. LEGAL RESERVE

The legal reserve is set up under the provisions of Civil and Commercial code, which requires that a company shall allocate not less than 5% of its net profit, to a reserve account ("legal reserve") upon each dividend declaration, until this account reaches an amount not less than 10% of the registered authorised capital. The legal reserve is not available for dividend distribution.

The legal reserve is set up under the provisions of Section 116 of the Public Companies Act B.E. 2535. Section 116 requires that a company shall allocate not less than 5% of its annual net profit, less any accumulated losses brought forward, to a reserve account ("legal reserve"), until this account reaches an amount not less than 10% of the registered authorized capital. The legal reserve is not available for dividend distribution.

#### 18. DIVIDENDS

#### The Company

At the Company's Board of Directors meeting held on November 11, 2016, the Board of Directors passed the resolution to pay the interim dividend totaling Baht 41.04 million (Baht 54 per share) to the shareholders. The dividend was paid within February 24, 2017.

57,152 1,240,899	60,351 1,278,277
	57,152

#### 21. FAIR VALUE MEASUREMENT

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. Principal market is the market with the greatest volume and level of activity for the asset or liability. Market participants comprise buyers and sellers in the principal or most advantageous market for the asset or liability whereby market participants are independent of each other, knowledgeable and having a reasonable understanding, able to enter into a transaction for the asset or liability, and willing to enter into a transaction for the asset or liability.

To increase the consistency and comparability in fair value measurements and related disclosures in the financial statements, the fair value hierarchy is categorized into 3 levels with respect of the inputs to valuation techniques used to measure the fair value. The fair value hierarchy gives the highest priority to quoted prices (unadjusted) in active markets for identical assets or liabilities ("Level 1 inputs"), secondary priority to other observable inputs ("Level 2 inputs"), and the lowest priority to unobservable inputs ("Level 3 inputs").

Level 1 inputs are quoted prices (unadjusted) in active markets for identical assets or liabilities that the entity can access at the measurement date.

Level 2 inputs are inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly or indirectly.

Level 3 inputs are unobservable inputs for the asset or liability.

As at December 31, 2017 and 2016, the Group had no any asset or liability that is measured at fair value (both on a recurring or non-recurring basis) in the statements of financial position.

However, the Group has financial assets and liabilities not measured at fair value in the statements of financial position as at December 31, 2017 and 2016 but for which the fair value is disclosed in Note 22.

## 22. DISCLOSURE FOR FINANCIAL INSTRUMENTS

## Financial risk management policies

The Group is exposed to normal business risks from changes in market interest rates and currency exchange rates and from non-performance of contractual obligations by counterparties. The Group does not issue derivative financial instruments for trading purposes.

## Foreign currency risk

The Group is exposed to foreign currency risk relating to purchases and sale of goods which are denominated in foreign currencies.

As at December 31, 2017, the Group has an outstanding balance of short-term forward purchase contract of U.S. Dollars 0.3 million (equivalent to Baht 9.18 million) and short-term forward sale contract of U.S. Dollars 2.0 million (equivalent to Baht 64.95 million). The above contract matures in June 2018

Management believes that said foreign currency risk is minimal.

#### Credit risk

Credit risk is the potential financial loss resulting from the failure of a customer or counterparty to settle its financial and contractual obligations to the Group as and when they fall due.

Management has a credit policy in place and the exposure to credit risk is monitored on an ongoing basis. Credit evaluations are performed on all customers requiring credit over a certain amount. At the reporting date there were no significant concentrations of credit risk. The maximum exposure to credit risk is represented by the carrying amount of each financial asset at the reporting date.

### Liquidity risk

The Group monitors its liquidity risk and maintains a level of cash and cash equivalents deemed adequate by management to finance the Group's operations and to mitigate the effects of fluctuations in cash flows.

#### Fair value of financial assets and liabilities

The Group used level 2 inputs, which are inputs other than quoted prices included with level 1 that are observable for the asset or liability, either directly or indirectly, to estimate the fair value of each class of financial assets and liabilities:

Cash and cash equivalents, trade and other accounts receivable - the carrying values approximate their fair values due to the relatively short-term maturity of these financial instruments.

Bank overdrafts and short-term loans from financial institution, trade and other accounts payable - the carrying values approximate their fair values due to the relatively short-term maturity of these financial instruments.

Investments in subsidiaries and liabilities under finance lease agreements are not practicable to be estimated the proper fair value without incurring the excessive costs.

#### 23. CAPTIAL MANAGEMENT

The primary objective of the Group's capital management is to ensure that they have an appropriate financial structure and preserves the ability to continue their business as a going concern.

As at December 31, 2017 and 2016, the Group's debt-to-equity ratio were 4.29: 1 and 4.72: 1, respectively, and the Company's debt-to-equity ratio were 3.70: 1 and 4.34: 1, respectively.

## 24. COMMITMENTS AND CONTINGENT LIABILITIES

As at December 31, 2017,

a) the Group had land rental and vehicle agreements for a various period up to July 2021. The Group is committed to pay rental fee under the agreements as follows:

	In Thousand Baht			
	Consolidated financial statements		Separate financial statements	
	2017	2016	2017	2016
Within 1 year	10,853	3,549	2,057	791
After 1 year but within 5 years	12,586	8,963	4,938	1,839
After 5 years	3,780	-	2,268	-
Total	27,219	12,512	9,263	2,630

- b) the Company had a contract for building construction with a third party of Baht 2.05 million.
- c) the Group had contingent liability for letters of guarantee issued by several local banks in favor of state enterprises and local companies totaling Baht 1.36 million.
- d) the Company had contingent liability for guaranteed bank credit facilities of its subsidiary (Paprapat Co., Ltd.) amounting to Baht 230 million.

## 25. LISTING OF SECURITIES ON THE STOCK EXCHANGE MARKET

On September 8, 2017, the Company submitted a registration statement to the Office of Securities Exchange Commission of Thailand for offering 75,000,000 ordinary shares. The Company was allowed to offer its securities to the public on January 31, 2018.

## 26. EVENT AFTER THE REPORTING PERIOD

On January 25, 2018, the Company entered into the joint venture agreement with a local company for setting up the new company in Thailand to operate the wood pellet production and sell in both local and oversea market. The new company will has authorize share capital Baht 10,000,000 (100,000 ordinary shares at Baht 100 par value). The Company will invest 49% in the new company which presently, is in the process of establishment.

## 27. OTHER

On February 14, 2018, the Company has received a letter from the then lessor, that the Company has already cancelled the rental agreement effective on November 5, 2017, claiming for repairing and recovering the rental area at the amount of approximately Baht 1.29 million. The Company is in the process of legal consulting together with surveying and negotiating with the then lessor. However, the management of the Company is confident that the Company has returned the rental area according to the agreement. As a result, as at December 31, 2017, the Company does not record a contingent liability in respect of this case in the consolidated and separate financial statements.

# 28. APPROVAL OF FINANCIAL STATEMENTS

These financial statements have been approved for dissemination by the Company's directors on February 22, 2018.
